

## **Food Policy**

Our policy is to ensure that all our children are catered for – no matter how specific an individual diet may be.

If you have any concerns regarding our menu, please contact Ms Pettitt to discuss this directly.

All Breakfast Club staff hold a minimum Level 2 Award in Food Safety in Catering.

## **Food Allergies**

We understand that food allergies and intolerances can present a serious problem to some people, and our staff will do their very best to provide you with the information that you require.

Where food is known to contain certain food allergens, they will be identified either in the name of the product or on our Dietary Information Cards.

Catering practices within the school are designed to minimise any risk to our children.

Breakfast Club staff have relevant training in allergy awareness and will assist you to the best of their ability.
