

SCHOOL PROJECT – TOUCH

15-01-17

PSHE LINK TO SEAL - GETTING ON AND FALLING OUT

We have all listened to the story taken from the Old Testament which involves “touch”:-

Jacob and Esau – Genesis 27.

This is the story of how Jacob tricked his elderly blind father Isaac by putting animal skin on his arms so that when Isaac touched him he believed he was blessing his elder son Esau.

It can be used as an example of how touch can be negative as well as positive – and is a common part of human experience.

Let us be thankful for the diversity in our own families. We are not the same; we are all unique individuals and part of God’s family.

TASK

Draw around your own or a family / friend’s hand. Choose key words to write in bold and bright colours on each finger as a guide for others about how we can use our hands to be good friends. The words below are there to help you and are those we have used in collective worship.

Write a special message or prayer in the palm of the hand. Please use clear, neat handwriting.

This is part of our Good Friendship Tree that will be a guide for all our community at **Deal Parochial C.E.P School.**

Thank you. Do your very best!

Ms Brown
