

Year 1 Martin Luther King Class

Dear Parents,

Happy New Year!

Many thanks for all your lovely presents and cards – they were much appreciated.

Enclosed are some activities to keep the children ‘ticking over’ for the next few weeks.

Try and complete some work every day and most importantly –

Keep the reading going!

Reading

We have included the Bug Club logins with which you are familiar with (see the reading sheet with green bug on). Every child has many books available on this online resource and also four ‘real’ reading books included in your pack. Please let me know if you need any more. Please read any other books you have at home...

Literacy

I have included lots of mini topics for the children to compose and write about. Please remember to:

Use curly letters

Use word spaces

Capital letters to start

Sharpen your pencil (or use a pen)

Spellings and handwriting are in a little booklet.

Computing

Also included are the Purple Mash logins. The children are familiar with this programme and we have practised logging in at school. They know how to access their ‘to do’ list (red tab at the top of the page). This will keep their computer skills going with various tasks. Also at the

top of the page are 'Alerts'. These will show any emails which I have sent to the children and are also a way for you to contact me with any questions.

Numeracy

There are subtraction sheets for this term's work and also booklets for the next topic on Shape. I will be able to add teaching videos to the Purple Mash emails to go with these sheets and booklets (log in to Purple Mash, go to 'Alerts' at the top of the page, open the email and the attachments will be at the bottom of the message).

Science

The science booklet will finish off our topic on 'Everyday Materials' which we started last term.

Please contact me with any questions or concerns, either through the Purple Mash email option or my school email:

cluffd@deal-parochial.kent.sch.uk

Regards,

Mrs Johnson
